

In your role as a Chartered Engineer at KB2 you will be required to become part of an established small team working alongside our Graduates, Technicians Chartered, Senior and a Senior Chartered Engineer all of whom are actively involved in the day to day running of our varied project portfolio.

Whilst everyone in KB2 is encouraged to take responsibility for their individual projects contribution towards the team effort of KB2 is paramount.

We are Investors in People and ISO 9001 accredited which means we take our people and our responsibilities seriously. We are guided by our “North Star” paper which outlines our business objectives and you will be expected to take an active role in achieving these.

As you will see from our website, since forming the practice in 1982 we have worked with most types of client predominantly in the private sector in the southern part of the UK.

We take pride in building relationships with our clients and work them to achieve tight deadlines.
